Barcodes: T33 CHR (5055806007147), C3 (5055806002241), P18 (5055806012967)

Additional Information

The medium level wc uses a standard close coupled pan and close coupled cistern, connected with a medium level flush pipe kit T33 CHR

SP511 : Back entry kit for C1/C2/C3/C4/C30, including back entry inlet valve with flexible hose and plug

The S trap P18 pan & C30 cistern combination should be used where the distance from the wall to the center of the soil pipe in the floor is 24cm

The cistern height can be varied by cutting the vertical flush pipe to length - maximum height is 1,425mm to the top of the cistern, minimum height is 1,125mm.

The soil pipe is fully enclosed and not visible

Water Inlet valve hole is located on the base of cistern tank on the right hand side

Bottom inlet valve (SP5A). Back inlet valve available as optional item (SP511).

Dual flush cistern fittings with ceramic lever on the right.

Cistern connected to pan with internal bolts.

Close coupled wc must be used with standard Burlington toilet seats

The S trap P18 pan & C1/C2/C3/C4 cistern combination should be used where the distance from the wall to the center of the soil pipe in the floor is 21cm; If the wall to soil pipe distance is less than 24cm, then use the combination of P18 pan & C30 cistern tank
