Durability.

We use a high-performance modern acrylic for all our acrylic bench tops to ensure a hard but smooth finish that is water-, scratch-, heat- and stain-resistant. Its durable, non-porous surface makes it easy to maintain and very hygienic. You will enjoy a quality material and finish with the looks to create a beautiful bathroom.

Superior Paint Finish.

The VCBC flawless cabinetry finish is achieved through our high-tech paint layering process, where every panel is painted and heated at least five times before being assembled into the unit of your choice. Five times harder than lacquer-painted surfaces, it is the only process of its kind in Australasia and comes with a five-year warranty.

Colour Range.

Our contemporary colour range, regularly reviewed and renewed to keep ahead of the latest aesthetics in interior design, ensures you have the perfect options to create a range of looks. Our naturals, greys and blacks are the most popular, but people wanting something more dynamic can select from our carefully chosen bright colours to make your interior absolutely memorable.

Smooth Touch.

Experience the quality and finish of VCBC products in person. We invite you to visit one of our showrooms to touch and discover a surface so impeccably smooth, you could be forgiven for thinking it was glass.

Made in New Zealand.

Our Story

In 1950, we started a family business. Our special blend of (relatively) youthful exuberance and (relatively) sensible experience has ensured the company has flourished. We've outlived walk shorts, survived stubbies, prevailed over polaroids and taken up new technology.

From an era when one-bathroom houses were the norm, Bath Co (previously Smail & Co) has maintained its position at the leading edge of the bathroom industry.

Over the decades, innovation has seen us adapt, and just like our customers' needs and wants, we'll continue to evolve.

When it comes to the manufacture and importation of bathroom products, we know our stuff. Our VCBC collection is made here in New Zealand, using the latest technology to produce pieces of flawless quality, finish and durability.

We create contemporary pieces that remain timeless and which suit a wide range of personalities and budgets. Most of the ceramics and accessories that complement our collection are sourced from design houses in China – where leading design is matched by unrivalled standards of craftsmanship and quality.

With showrooms in Auckland and Christchurch, robust inter-island (and inter-generational) input provides you with a stunning range that'll look great, suit your lifestyle and last at least as long as the company has.

Here's to the future of a committed New Zealand company, and here's to the next generation of family involvement.

Enjoy browsing our Smart Collection and don't hesitate to contact us. We'd love to talk to you.

Vanity Range

We know choosing the right vanity can seem tricky, but here are some things to think about and some tips to help make the decision easier.

WALL-HUNG OR FLOOR UNIT?

The size of your bathroom and how many people will be using it will affect your decision. How much storage do you require? Guest bathrooms usually don't require a great deal of storage space, and a family bathroom will benefit from having lots of cupboards and drawers. Wall-hung units tend to make a bathroom look larger and are easier to maintain.

SINGLE OR DOUBLE BOWL?

Consider the amount of space you want on the vanity top, the size of your bathroom and who will be using it, to determine whether you want one or two basins.

WHICH STYLE?

When thinking of style, keep in mind the style of your home and your personality. We have great finish options available - a special white painted finish or stunning timber effect melamine. Also, give some careful thought to the style of bowl you want in your vanity.

POLYMARBLE OR CHINA?

Polymer is a composite mixture of polyurethane resin with a gel coat surface, using various fillers to achieve strength and rigidity. Polymer is a durable, solid and attractive product that has been used in the manufacturing of bathroom products for many years. Our polymer tops are Fresh, Paris, Splash and Fit.

China tops are composed of ceramic materials fired at high temperature to form a non-porous body, having exposed surfaces coated with ceramic glaze fused to the body.

This is used to form a number of bathroom fixtures such as toilets, bidets and lavatory sinks. China sinks are susceptible to damage from heavy impact due to the firing process. Due to the firing process - china shrinks up to 10%. This means that every top is unique and will have small flaws including slight warping. Our china tops are Cangas, English Classic, Soft, Sharp, Zara, Synergy, Ice and Space.

Choose a cabinet, pick a finish and complete the look with handles.

Vanity Sizes

You might have an idea of the space you are working to. Our vanity size matrix lets you see at a glance the options available in each of our styles.

THE BEST DECISION FOR YOUR SPACE.

Baths

The Freestanding Bath

Well-loved by everyone. They are easy to install as they don't require framing from a builder, and they give a wonderfully spacious look.

The Drop-In Tub

Fitted into a frame on-site using a platform.

The Whirlpool Tub

Gives you the added benefit of getting a massage while you relax and soak in the water. They have a range of controls to manipulate the strength of the water jets and the heat of the water. Anybody with a Whirlpool tub can enjoy a truly relaxing bathing experience!

PUT YOUR
FEET UP
AND RELAX

Which is the right bath for you?

The Shower Bath

A practical and space saving solution – perfect for a smaller bathroom!

ClearStone Baths

FORM CLEARSTONE

The internal space of this bath is bigger than most full-size regular baths, thanks to its narrow rim.

The baths are finished with high gloss surface in a brilliant white colour with exceptional performance, and is engineered to last a lifetime. By using the best material, ClearStone baths are thinner with more delicate edge outlines.

EASIER FITTING

As whirlpool baths can sometimes be tricky to fit, we supply ours fully assembled, so it's easier for your plumber and saves you money on installation.

SAFETY SENSORS

To prevent the pump from running dry and burning out if the water level drops to low, the whirlpool baths are fitted with special safety sensors.

SOLID ENCAPSULATED FRAME

For maximum strength and leak protection our whirlpool baths are supplied with fixed pipe work within a fully encapsulated frame.

PLENTY OF WHIRL ACTION

Most whirlpool baths come with 6 jets, our whirlpool baths come with no less than 11 jets - it makes the world of difference!

NICE QUIET AND EFFICIENT PUMP

Our whirlpool baths are fitted with an efficient fully integrated 1.2 horse power pump. The pump and its components conform to strict regulations and feature an anti-noise pad, ensuring a quiet and relaxing experience.

MATERIAL

Whirlpool baths are made from a special acrylic - a sensual surface with excellent thermal properties. It retains the heat and is warm to touch.

Shower Baths

B SHOWER BATH

Perfectly proportioned space savers.

Both B Shower and Square Shower baths are made from a special Acrylic with a sensual surface with excellent thermal properties. It retains the heat and is warm to touch.

to find the right one!**

Showers

EASY TO INSTALL

Our shower enclosures have been designed so they're really simple for your plumber to install, helping save you money.

SAFETY IN MIND

Safety is critically important to us and all our enclosures are manufactured to New Zealand safety standards. Safety is never compromised in our stylish designs.

PROTECTION PLUS

VCBC showers have rise and fall hinges, protecting the rubber seals and improving water tightness. All screens have 3M glass protection included.

BUILT TO LAST A LIFETIME

We carry out rigorous testing on our doors, so you know a VCBC shower will stand the test of time.

TEMPERED GLASS

All VCBC shower enclosures are fitted with 6mm or 8mm toughened glass.

SLIMMER TRAYS

Our range of lightweight acrylic trays are designed to add a sturdy base to our great range of enclosures.

POLISHED ALUMINIUM FRAMES

We use high-quality aluminium frames in all our enclosures which ensure strength and rigidity over years of use.

WALL LINERS & UPSTAND OPTIONS

Patented sealing tape or acrylic upstands

Acrylic Shower Trays

ABOUT OUR SHOWER TRAYS

All you need to get your shower looking modern, stylish and elegant.

Our range of lightweight acrylic shower trays have been designed with the best quality materials and a contemporary look. All trays come with an easy clean waste and sealing tape and acrylic upstands on two sides.

PU TRAYS

The trays are acrylic capped reinforced trays with a smooth under-surface. (Available with upstands, refer to page 59)

NOTES

SKIRT BATHS: Height does not allow for feet, height for adjustable 110-150mm. Panels & legs – All panel packs are supplied with both a male and female panel and are 100mm high - made from acrylic (not grp). All panel packs are supplied with legs (adjustable in height for leveling) with adjustable telescopic arms. The ends of these arms have a magnetic plate, which marries up with the inside of the panel - you can remove the panel for maintenance, and re-fit very easily. Depending on the size, further legs (adjustable in height for leveling) are included.

NOTES

Onda accessible back-to-wall toilets meet NZS 4121.

[^]Rest, Cascade and Sphere toilets: Pan set outs reflect the range permissible within the pan shroud with a range of connectors.

INSTALLATION TIPS

1. All products must be inspected before installation. VCBC is not liable for installation costs.
2. Before installing, ALWAYS read the accompanying installation notes.
3. Any wall to which a product is fixed must be of suitable construction to support that product's weight.
4. To assist with future maintenance, it is strongly recommended that furniture and ceramics be fitted to a tiled surface (rather than butting tiles against an item).
5. The glaze used on VCBC's ceramic products is tough and non-porous. However, it must not be put under undue stress which may cause crazing or other damage:
 - ~ Do not over-tighten the waste – hand-tighten only with the correct sealant and contoured waste
 - ~ Do not over-tighten tapware during installation
 - ~ Water temperature should not exceed 55°C
 - ~ Do not drop anything onto a glazed surface
6. To avoid damage, tapware and showers MUST have the appropriate in-line filters, and water pressure should not be no more than 500kPA.
7. To avoid deterioration, it is important that mirrors are kept dry of any moisture, especially along edges. (Refer to instructions for the appropriate cleaning method.)
8. Cleaning products are to be used as per instructions. Use a moist soft cloth, micro fibre cloth or a diluted mild detergent. Never use products containing acids, bleach or caustic soda. Never use cleaners of a gritty, abrasive nature.
9. Ceramic products are fired in a kiln, then cooled – a process which causes shrinking. Therefore, items may not be perfectly square or flat. Each product is checked to ensure it meets strict tolerances before dispatch.
10. Toilet must be fitted to 100mm soil pipe.

PRICING

Price quoted in our price list are for white only or Timber effect Melamine finish. Note: some colour may vary from samples.

TAP HOLE

All tops and basins are quoted with one tap hole. Please ask for pricing on other configurations.

DELIVERY

We aim to despatch all standard orders within five days of receipt of the order. Imported products, timber finishes, paint colours, and other non-standard items may be subject to a longer delivery date. We will keep you informed if this occurs.

FREIGHT

Freight will be charged for orders under \$400.

DISCLAIMER

Smail & Co retain the right to change products and specifications without notice. All measurements are in millimetres and are nominal only. We do not refund if you change your mind. If the goods are faulty, however, we will meet our obligations under the Consumer Guarantees Act.

NON STOCK ITEMS

Products made to order take longer to deliver.

WARRANTY

General Warranty Statement

Smail & Company Limited (Smail & Co) warrants that in the manufacture of its Bath Co products only high quality workmanship and materials have been used.

The following warranty applies to Bath Co products supplied to customers in New Zealand, for use in residential installations only.

Subject to the warranty conditions, in addition to any other right or remedy that the purchaser may have under any relevant consumer protection legislation, Smail & Co undertakes to either **repair or replace** (at its discretion) any Bath Co product if that product contains a **material defect** with either **materials or workmanship** which arose in the **course of manufacture**.

Residential Warranty

- In relation to the following products bathroom vanities, basins, tops, baths, toilets, showers, tap wares a 5 year warranty applies from date of purchase.
- In relation to the following products shower hoses, shower heads, cartridges, mirrors, cistern fittings, wastes, toilet seats, electrical, face plates, washers, valves and shower seals a 1 year warranty applies from date of purchase.
- In relation to the following products in-wall cisterns (excluding items listed above) a 15 year warranty applies from date of purchase.

Commercial Warranty

In relation to any Bath Co products installed in a commercial situation a 12 month warranty applies from the date of purchase. Commercial situations are defined as public wash rooms, public buildings, schools, sports centres, gymnasium, hospitals, motels, hotels and retirement villages.

Warranty Conditions

Smail & Co's domestic/residential warranty and commercial warranty is subject to the following conditions:

1. Proof of purchase (such as invoice or receipt) must be provided by the initial purchaser. This warranty is not transferable.
2. All Bath Co installation instructions must have been strictly followed and the product must have been installed in accordance with the relevant New Zealand Building/Plumbing Codes by a certified building or plumbing practitioner (as appropriate for the product).
3. The product must not have been subject to excessive wear and tear. The warranty only covers normal use and typical wear and tear.
4. The product must not have been tampered with or repaired in any way other than in accordance with this warranty.
5. The product must not have been damaged by misuse, accident or neglect, including water damage, sunlight, excessive water temperature, humidity, direct lighting or other adverse environmental conditions.
6. Harsh detergents or abrasive cleaners must not have been used on the product and the product must be cleaned in accordance with the recommended cleaning methods.
7. All warranty covered repair work is to be performed by Smail & Co but Smail & Co shall not be responsible for the cost of removal or installation of the product.
8. Smail & Co shall make the final determination on any issue or uncertainty regarding the application of this warranty.
9. If you acquired the Bath Co product in trade (or some other exception exists under the Consumer Guarantees Act 1993 (the Act)) then the Act shall not apply.

If the above conditions are not met, the warranty will be null and void.

Smail & Co shall not be liable to the purchaser for any loss, damage (direct, indirect or consequential), cost or expense incurred by the purchaser (including, without limitation, any damage to other products and/or labour costs incurred in the installation, repair or replacement of the product) other than in accordance with the above warranty, under any relevant consumer protection legislation or as consented in writing by Smail & Co in advance of the cost being incurred.
