

A woman with blonde hair, wearing a white ribbed sweater, is seated at a white table. She is looking down at three rectangular samples of Kordura benchtop material. The samples are arranged in a row: a light grey solid color, a medium grey solid color, and a white marble pattern. The background is a blurred interior space with a desk and some office equipment.

High Performance Kordura

Our high-performance Kordura benchtops are crafted for real homes, the busy ones, the stylish ones, and everything in between. With a beautifully smooth, hard-wearing finish, they stand up to daily life while still feeling effortlessly refined. Water, heat and stain resistant, their non-porous surface stays fresh, hygienic and easy to care for, day after day.

Kordura Features

Low VOC

Designed with low volatile organic compounds for a healthier home environment.

Contains No Crystalline Silica

Engineered without crystalline silica, making it safer to manufacture and handle.

Non-Porous & Highly Hygienic

A smooth, non-porous surface that resists bacteria and moisture, perfect for bathrooms, and laundries.

Stain & Heat Resistant*

Built to withstand everyday spills and heat exposure, keeping your surfaces looking pristine.

Repairable

Minor marks and scratches can be restored, extending the life of your surface.

Soft-Touch Feel

A luxuriously smooth finish that enhances both comfort and design.

Easy to Clean**

Effortless maintenance — simply wipe down for a fresh, clean surface every time.

Simple to Drill

Kordura can be easily drilled onsite (e.g., for tap holes) and can also be cut down if required.

*Kordura offers excellent stain and heat resistance; however, it is not fully stain- or heat-proof. We recommend taking reasonable care to prevent damage. ** For detailed information, refer to our Cleaning & Maintenance Guide located in the Resources section of our website.
